2022 CONTEST UNIVERSITY ---> Registration is now open for the 2022 Contest University (CTU), to be held on 19 May at the Hope Hotel near Dayton, Ohio. See <https://www.contestuniversity.com/> for the details. This is a new venue for all contest-related activities taking place during the Dayton Hamvention (CTU, Contest Super Suite, Top Band Dinner, Contest Dinner, etc).

3Y0J: LATEST NEWS ---> The companies that will supply the team with the tents and the masts for the yagi antennas have been selected, and plans are in place for practising the critical beach landing by inflatable boat throughout the current winter season in Norway.

Cezar, VE3LYC and Otis, NP4G have joined the DXpedition, while three other operators (VE7NY, HAONAR and RA9USU) have dropped out of the team "due to various health and personal issues".

The team reports that "more than \$130,000 out of the total budget" have been spent so far. "We have reached an income level of \$500,000", they say, "but still critically need additional \$160,000 support to be able to make it. Going to Bouvet is a huge undertaking financially as all our expenses are upfront. If you want to have the opportunity to work the rare #2 DXCC Bouvet Island, please consider to donate upfront". Read the complete Press Release #7 on the DXpedition's website (<https://www.3y0j.no/>).

DREAM BIG AND DARE TO FAIL ---> "Regretfully, none of the expedition projects I worked on during the course of 2021 came to fruition", Cezar Trifu, VE3LYC says. "While I couldn't move any new project forward, I did spend quite a bit of time though writing a book about the past ones". Its title is "Dream Big and Dare to Fail", and it is "addressed to all radio amateurs, chasers and activators alike. It will take you through the voyages I carried out as a solo operator or team member of various radio expeditions, from the Arctic to the Sub-Antarctic regions. You will join me along each journey and discover the challenges encountered in bringing on the air remote islands belonging to 25 IOTA references, 19 of which ranked in the Top #30 on the IOTA Most Wanted List out of 1136 groups activated to date. Apart from its documentary aspect I wished to provide, I hope that its reading will encourage everyone to pursue his/her own adventure dream, whichever may be, and strengthen his/her resolve in coping with all the ups and downs that it may entail. This project also gave me a new opportunity to acknowledge many of those who helped me bring my own adventure dreams to life".

The book (240 pages, full color, with 516 illustrations) will be available for purchase in early January and orders accepted via PayPal. The website (<https://ve3lyc-book.weebly.com/>) will be updated with the details over the next couple of weeks. For the time being, any inquiries and expressions of interest can be addressed to the author at ve3lyc[@]hotmail.com.

ROCKALL 2022 ---> The dates for the entire trip [425DXN 1594] have changed to 6-19 June. Weather permitting, Nobby, G0VJG aims to be active from the island as MM0UKI/p for 1-2 days during that time frame. QSL via M0OXO's QRSS. Follow Nobby on Twitter (@G0vjg) for updates. [TNX DX World]
